TERMS

All bills are subject to 2 per cent discount within 10 days from invoice date. Sixty days net. Sight draft, plus interest thereafter.

Shipments are forwarded by best carrier, in our judgment, at time of delivery, unless otherwise specified by customer.

First-class stock is carefully packed when shipment is made, and we hold good order receipt from the transportation company. Our responsibility ceases thereafter. If the stock reaches you in bad condition, notify agent and bring claim against the delivery company for damage by their negligence, as no allowance for this cause can or will be made by us.

All items in this list are offered subject to crop deliveries or failures, and being unsold on receipt of order, and other conditions beyond our control, and ALL PRICES ARE SUBJECT TO CHANGE WITHOUT NOTICE.

Bulbs, whether shipped on arrival or placed in cold storage for later delivery, may be examined at time of arrival if desired, but no claims will be entertained at a later date. As to all items other than bulbs, claims must be made within five days after receipt or they cannot be recognized.

In the interest of time saving, we ask that you authorize us, when necessary, to substitute with the nearest similar size or variety.

Discounts for cash with order, applying on orders from \$5.00 up.

MINIATURE ROSES

F.O.B. PENNSYLVANIA SHIPPING POINT

Miniature Roses are permanently tiny, hardy outdoor plants, as hardy as regular H. T. Garden Roses. They should not be confused with Polyantha Roses. These miniatures grow only about 6 to 12 inches high, with blooms the size of a 5 or 10 cent piece when fully open.

Miniature Roses are shipped from September until May, from 3 inch pots with soil on their roots, and each plant is wrapped with Sphagnum moss in wax paper. On dormant plants shipped after Dec. 1st tops are cut back about 1 inch to assure vigorous, symmetrical growth from the base.

For over the counter sales pot them in 3 or 4 inch pots and bring into growth in a greenhouse or out of doors.

Prices quoted are on orders for 100 plants or more. Free truck delivery in metropolitan area. Longer distances at cost. Packing 6% extra if by express. Special discounts on orders \$500.00 and over.

Fall shipment only at above prices. Later deliveries out of storage, Dec. to Feb., subject to 20% additional on orders placed prior to Nov.

HANDLING AFTER RECEIPT of Plants: Thoroughly water rootballs and store in cool and light greenhouse. Pot or plant in moist peat and never allow to dry out. Forcing of early varieties can begin in sunny house in November with gradually increasing night temperatures to 70°, syringing frequently to help the buds to break. For later bloom keep below 50° until 2 to 4 weeks before being needed, when temperature should be raised to between 50 and 60°, according to variety, and time wanted. For Easter they may actually have to be held back to keep from blooming early.

PEAT POTS

To establish young plants when tight schedules do not permit direct benching, use nutrient treated Peat Pots. These pots are molded from 75 per cent Peat and 25 per cent wood pulp, and contain 1.3 per cent Nitrogen, 1 per cent Phosphoric Acid and 1.6 per cent Potash. They are weed disease free.

Plants grow faster and make more vigorous and rapid growth than plants grown in other types of containers. Nutrient treated Peat Pots dry out slower than clay pots, therefore require less frequent watering. Because the roots penetrate the wall of the nutrient treated Peat Pot, there is no knocking out, thereby saving time and labor.

S.S.S. AUTOMATIC WATER ROBOT

"IT PROPERLY APPLIES WATER BETTER THAN BY HAND" . . . "SAVES MONEY"
 . . . "SAVES WATERING TIME" . . . "RELEASES A MAN TO DO OTHER WORK"

THE S.S.S. AUTOMATIC WATER ROBOT HAS EVERYTHING REQUIRED TO SATISFY EVERY RANGE'S WATERING NEEDS!

1—AUTOMATIC SHUTOFF

Saves you time and labor. The Water Robot waters better than manual watering and automatically shuts off at the machine when two benches or beds have been watered as you directed.

2—AUTOMATIC SHUT OFF ALARM

The S.S.S. Automatic Water Robot delivers as much or as little liquid as you require. Water or liquid fertilizer passes freely with no constriction of pressure or volume. The convenient shut off alarm tells you when the job is done.

3—AUTOMATIC LEVEL HOSE WINDER

It is not necessary to have the reel aligned perfectly with the bench or walk because the Automatic Level Hose Winder prevents the hose from tangling or piling up on the reel.

4—MICRO-SWITCH CONTROLS

Guards against spot flooding. Especially when it encounters an overload, the Robot automatically stops winding . . . automatically shuts itself off.

5—VARIABLE SPEED DRIVE

Speed of winding can be adjusted from 2 to 3 feet per minute.

6—RUBBER-TIRED WHEELS

Makes it easy for one man to move.

7—ADJUSTABLE RISER

The telescope-like riser on the watering sled allows quick and easy adjusting of the nozzles at the required height.

8—COMPACTNESS

Maximum width of Water Robot is only 24 in. with a 125 ft. reel. Only 28 in. wide with a 200 ft. reel. Easily passes through practically any door or end aisle. Turns completely around in its own 36 in. length.

S.S.S. AUTOMATIC WATER ROBOT

GUARANTEE

The S.S.S. AUTOMATIC WATER ROBOT is fully guaranteed to do the job as specified. In addition, every Robot is guaranteed for one full year against all mechanical failures.

★ "Very Satisfactory"

WM. D. REINIGER & SONS
 Hatboro, Penna.

March 1, 1956

Dear Mr. Skidell;
 "The 'Water Robot' we purchased from you is working out very satisfactory in our rose program."

Sincerely yours,
 Lewis D. Reiniger

★ "Save Labor"

EMIL OBERLE
 E. Meadow, L. I., N. Y.

March 1, 1956

Dear Sir;
 "The watering from this machine is very satisfactory and the fact that it releases a man for other work, in these days of high labor costs is very important."

Yours very truly,
 Emile Oberle

★ "Save Money"

WEST END GREENHOUSES Inc.
 Olean, New York

March 27, 1956

Dear Mr. Skidell;
 "Of course it is a terrific labor saver. It has eliminated one water boy at a saving of about \$1,000 per year."

Sincerely yours,
 T. Paul Newman

★ "Uniform Watering"

EDWARD C. VOGLEY
 Florist
 East Meadow, L. I., N. Y.

February 24, 1956

Dear Mr. Skidell;
 "The results from this automatic watering robot have been better than manual watering because of the evenness of the quantity of water each plant receives."

Yours very truly
 Teresa C. Vogele

★ "Save Time"

ST. ANTHONY GREENHOUSES
 Minneapolis, Minn.

April 3, 1956

Dear Sir;
 "It not only gives us more time for other work around the greenhouse, such as disbudding, pinching and tying, but it does a very important job of watering. It applies the proper amount of water over the entire bench."

Yours truly,
 Roger D. Schnabel
